DSBIZ™ (Exam DSZ-110): Data Science for Business Professionals

Course Number: CNX0009

Course Length: 1/2 day

Overview:
The ability to identify and respond to changing trends is a hallmark of a successful business. Whether those trends are related to customers and sales, or to regulatory and industry standards, businesses are wise to keep track of the variables that can affect the bottom line. In today’s business landscape, data comes from numerous sources and in diverse forms. By leveraging data science concepts and technologies, businesses can mold all of that raw data into information that facilitates decisions to improve and expand the success of the business.

Target Student:
This course is designed for business leaders and decision makers, including C-level executives, project managers, HR leaders, Marketing and Sales leaders, and technical sales consultants, who want to increase their knowledge of and familiarity with concepts surrounding data science. Other individuals who want to know more about basic data science concepts are also candidates for this course.

This course is also designed to assist learners in preparing for the CertNexus® DSBIZ™ (Exam DSZ-110) credential.

Prerequisites:
To ensure your success in this course, you should have a working knowledge of general business concepts and practices. You should also have a basic understanding of information technology (IT) resources and systems, including networks, computers, and other digital devices used in an enterprise setting.

Course Content
Lesson 1: Data Science Fundamentals
  Topic A: What is Data Science?
  Topic B: Types of Data
  Topic C: The Data Science Lifecycle

Lesson 2: Data Science Implementation
  Topic A: Data Acquisition and Preparation
  Topic B: Data Modeling and Visualization
  Topic C: Data Science Roles

Lesson 3: The Impact of Data Science
  Topic A: Benefits of Data Science
  Topic B: Challenges of Data Science
  Topic C: Business Use Cases for Data Science
